Dedication

In every effort toward the attainment of a well-rounded education, there is someone who aids, directs, and ever seeks to find the answers to the myriad questions which students ask in their search for scholastic achievement. We would, therefore, pay proud tribute to such a person in our school. It is a distinct privilege for the Class of 1953 to dedicate this annual to Edna J. Campbell for her constant efforts to improve the facilities of our high school library.

We wish particularly to thank our Faculty Adviser, Miss Mildred Santschi, for her efforts in assisting us inthe compilation of these pages. We would, also, express our appreciation to Mr. I. Class History

In the fall of '49, sixty-five fun-loving Freshmen climbed aboard their roller coaster for the first part of their ride through Dalton High. Our supervisor was Mr. Berg. Operating the controls was Bill Moser as our President, with Harold Showalter assisting him as Vice-President, Janice Teeple as Secretary, and George Winkler handling the finances of the class as Treasurer. Our councilors were Joan Galehouse, Doris Gerber, and Deloros Kurzen. During our first ride, which had its ups and downs, we found we had many athletes, musicians, and a few interested in declamations, riding on our roller coaster.

One of the high points reached was the initiation given by the Seniors where we became true members of Dalton High. Later in the year, we stopped at the home of Charles Shaffer to enjoy a weiner roast.

There were sixty-three passengers aboard for our second ride. Five of our passengers jumped off but three others climbed aboard. Mr. Hummel was our supervisor for this trip. George Winkler took over the controls as President, with Harold Showalter remaining as Vice-President, Faye Saurer as Treasurer was in charge of tickets, and Janice Teeple as Secretary kept a record of our trip. Our councilors were Helen Weimer, Deloros Kurzen, and Myron Mumaw. Dwayne Taylor was elected as Sgt.-at-Arms to keep order.

As the hills flew by, we found many of our passengers taking part in the school activities. We had one Majorette and were well represented in music with many members in the High School Band, Orchestra, Girls' Band, and Girls' Glee Club. There were six boys playing basketball; five, baseball; four, football; and four, track. It is interesting to note that of the three members that comprise each squad in football, varsity and reserve basketball cheerleaders, we had two members from our class in each group.

During the last lap of our second ride, we stopped at Stone's in Massillon to buy our class sweaters which were bright red trimmed with white bulldogs. Our class party for this ride was a square dance which was held at Esther Shisler's home.

We began our third ride with fifty-seven brave passengers still aboard. Our supervisor for this trip was Miss Diane Kollas, a new teacher on the staff. During this ride we lost only two members who were replaced later by two newcomers. At the controls once more was Bill Moser as President; Ruth Zimmerman, Vice-President; Faye Saurer, Secretary; Deloros Kurzen, Treasurer. Our major financial problem was the Junior-Senior banquet. Vaughn Kurzen was elected Sgt.-at-Arms. Councilors for this ride were Pauline Shaffer, Helen Weimer, and Myron Mumaw.

Now that we were upperclassmen many of our members were in Girls' Band, Orchestra, and High School Band, with nearly everyone a member of the Mixed Chorus. Our class was represented by three majorettes, one varsity and two reserve basketball cheerleaders, and one football cheerleader. There were eight boys playing football from our group; five, basketball; and four, baseball.

There were many important events during this year. The first one was our Junior Class Play, "Double Exposure." Then about Christmas Santa arrived with our long awaited rings. Later in the spring we gave the Seniors their banquet using Hawaii as our theme. This was the first year students were allowed to bring outside dates, a privilege truly appreciated. This year, also, for the first time, we had an orchestra for the banquet.

For our fourth ride there were fifty-five passengers aboard with Miss Santschi and Mr. Scott acting as supervisors. George Winkler once more took over the controls as President; Vaughn Kurzen, Vice-President; Deloros Kurzen, Secretary; Doris Gerber, Treasurer; and Bill Moser, Sgt.-at-Arms. Due to the changed policy of electing Student Council officers, there were six members from the Senior Class. Janice Teeple, Norma Lower, and Myron Mumaw served as regular Council members with Harold Showalter, President; Doris Gerber, Vice-President and Shirley Snavely, Secretary.

Now that we were Seniors there were many things to do. We had one football cheerleader, three varsity cheerleaders, and one reserve cheerleader. There were five boys in basketball, seven in baseball, six in football, and we had three Majorettes. There were a number of us in High School Band, Orchestra, Girls' Band, and Girls' Chorus. We took a fieldtrip in Government Class to Columbus, made publications of the Barker, produced a Senior Class Play, were guests at the Junior-Senior Banquet, and last of all published the Luanna.

Now as we step off our roller coaster, we wish to express our appreciation for the co-operation and help of the Faculty and many friends who helped us reach our destination.

Prophecy cont'd.

Mary Miller has changed her name.
To marry Kenny was her aim;
Now she's a housewife, cheerful and gay,
Cooking and cleaning for her family all day.

Bill Moser is a lumber jack
And with his trusty saw and ax
He cuts six cords of wood each day
And still finds time for a few short naps.

Myron Mumaw is going to college
To become a chemical engineer.
It's the professor's hope 'till he graduates
That the college remains in its original place.

Shirley Rake works in a popular drug store
Selling patent medicines galore;
Her sundaes and sodas, too, are tops,
For all her customers return for more.

Arthur has traveled to many new places
And finally settled in a western state.
His method of farming is new and improved
And his yield per acre is Washington approved.

Roxane worked her way to fame
Just by using her old nick name.
The TV producers thought she was swell--
As the second Dagmar she's done very well.

Faye wears the blue of the U. S. Navy
And carries the rank of second ships' mate,
Although she's gone on many a cruise
Her breakfast or lunch she ne'er did lose.

Pauline's goal is professional bowling
And she wants to be a hit.
She's trying hard for the "300" game
And hopes she'll soon accomplish it.

Mary Ellen Shane's dreams have already come true
And little Ellie Jr. has just learned to coo.
There are beds to make and dishes to do,
But she still has time for a visit with you.

Class Prophecy

Let's look at the Class of '53
To see what each one wants to be.
The following lines reveal to you
The kind of work we hope to do.

Shirley Amstutz has gone to college
To earn her two degrees;
Now she's back at Kidron
Teaching the children their ABC's.

Willis is now a professor stern
Down at Ohio State.
If you're ever in his class
You'd better not be late.

Clarence is known throughout the nation
For his books and essays on crop rotation;
He's working now at the experiment station
To advance his theories on conservation.

JoAnn B. is an artist true
Painting ads for highway signs;
Her murals have won her wide renown
On scenic routes from town to town.

Marlene is now a secretary
Who took a liking to her boss;
His praise for her is always high
Even when there's been a loss.

Kay D. inherited a fortune
And made her dreams come true
By visiting many countries
Far across the ocean blue.

Evelyn is a bookkeeper gay
Adding long columns of figures each day.
To shorten these columns was always her dream
So the boss finally gave her an adding machine.

But not to get a degree;

FRESHMAN CLASS OFFICERS

Juniors

The Junior Class had an enrollment of forty-one members in September but lost two early in the year. Our Faculty Advisers were Miss McMillen and Mr. Berg and our Student Council members were Marjorie Horst, Trudy Kerstetter, and Jim Swartz.

Our first major project was the presentation of our class play, "We Shook the Family Tree," early in November. Selection of our class rings was another serious decision to make. As upperclassmen we participated more actively and successfully in the various music, speech, and athletic events of the school year.

For our social life we held a Christmas party in the school gym after which we went caroling. The second big high light was the Junior-Senior Prom. It was quite a thrill to keep the Seniors guessing as to what our real plans were. The Prom and marching in with the Seniors at Baccalaureate made us realize how close we were to our last year of carefree high school days.

We bought sweaters in our class colors of white and maroon. Our class party was held at the Kidron Grade School.

Six boys from our class went outfor football. They were Donald Hofstetter, Ronald Raber, Jim Bolender, Larry Gardner, Bill Sommer, and Bob Weikert. In basketball, there were seven: Jim Bolender, Bill Sommer, Larry Gardner, Bob Weikert, John Ellis Sprunger, Allen Slabach, and Dean Sullivan. Bob McGovern was one of the managers. Janet Boss, Janet Steiner, and Joann Snavely were chosen to represent our class in the Student Council.

Our class was well represented in sports and music. Five boys went out for basketball and five people took part in the music contest at Kent.

We had three parties this year--one in the gymnasium, a roller skating party, and a weiner roast. We had a bake sale to help swell the treasury fund.

The farmer sows the seed in the soil, and, if Nature wills, the small seed grows to be a useful plant. The teacher, like the farmer, sows the seed of knowledge in the young fertile minds of the students. Many factors determine how well the child's mind will develop. First, the seeds of knowledge must be understood by the child; second, the child must be able to understand the material that has been presented; third, the surroundings must be suitable for a learning situation; and last, but not least, the child must want to make progress. Any one of these could be the factor that retards your child's progress. Let us all strive to remove any, or all, of these obstacles.
